

Badgers Learning Update

Week Beginning 4th October

We have had a great week in Badgers this week! Thank you to everyone who supported our European Day. The children looked great in their outfits and really got into the spirit of things. We had a great day, learning about different countries in Europe and about their physical and human geography. We learnt some flamenco dancing too. Everyone's favourite part was the food tasting! We tried lots of new foods from different European countries and reviewed them. We are looking forward to moving onto art next week. Thanks Mrs Machin and Mrs McGann.

Writing

As part of our European Day, children researched a country in Europe.

Suggested Writing Activity:

Can you choose a different country in Europe and research it? Create a poster all about that country. Can you include the flag and a map of where it is located? Think about physical geography, such as mountains, rivers, weather and the size of the country. Also, think about human geography such as capital city, population, landmarks, currency, government. What can you find out?

Reading

Next week we will be looking at a book about extreme environments where people still live.

Suggested Reading Activity:

What do you think we mean by extreme environments? Can you research all about different extreme environments, so that you have some ideas when we read the book next week? Where do people live that are classed as extreme? Are they dangerous? Why is it hard for people living there?

Spelling

Can you practise these words that we are finding tricky?
Should, would, could, does, shouldn't, wouldn't, couldn't, doesn't

Maths

This week, we have been learning about adding three digit numbers with carrying.. We have looked at using the expanded column addition, or the compact column addition to calculate. Can you continue to practise this at home by adding these numbers?

$234 + 465$	$773 + 278$	$542 + 392$
$168 + 327$	$237 + 698$	$783 + 157$

Other Information

RE– In RE, children have been learning about Diwali. As part of this, at some point before half term, children will be making some Diwali treats to bring home. They will not be eating them in school and will wait until they are home to do so. Ingredients include: ghee, condensed milk, semolina and mixed fruit.

Music– Please bring in Ukulele's EVERY Thursday for the lesson.

PE– Please ensure you wear your PE kit every Friday

Reading books–Please bring in Reading books, every Monday to change.
